MULTIWALL PC HD SOFT WHITE

HIGH PERFORMANCE POLYCARBONATE
GREENHOUSE COVERING

100% Light Diffusion
77% Light Transmission

HD Soft White PC Greenhouse Covering

Features & Benefits:

- 100% light diffusion scatters light in greenhouses promoting uniform growth. Produces bigger, brighter plants and vegetables.
- High light transmission optimizes plant growth.
- Diffusion softens light and reduces harsh solar energy avoiding hot spots that damage plants and makes a comfortable work and living environment.
- No Drip feature prevents condensation from forming droplets and dripping on the plants which can spread disease and damage plants.
- CC1 fire rating required by most building codes.
- High insulation value with multi wall structure.
- Promotes higher crop yields and eliminates shadows.
- Panel offers privacy while still allowing in natural light for growing.
- Available in 15 years limited warranty & 15 year non prorated warranty.
- 2 sided UV protection with the "No Drip" feature available by special order.
- Available in gauges - 4mm, 6mm, 8mm, 10mm and 16mm.

Shadows with clear covering
